Total increase 1928-1929		\$3,300 49
Net town debt Feb. 15, 1929		\$122,919 02

## TOWN MANAGER'S REPORT

The year of 1928 was unusually severe on our streets and roads because of the ever increasing automobile traffic, which never stops especially during rainy weather when the most damage is done. It will be necessary to maintain our present roads as best we can and build more of the permanent type.

The installation of culverts each year reduces the amount necessary for repairs and also insures safe travel.

Working under Mr. Arthur Barnes as foreman, 2825 feet of gravel road was completed on the State Aid work towards Lincolnville Center. This road was built according to the specifications of the State Highway Commission, and with proper maintenance this road should be of service many years. Mr. Barnes also built approximately 1800 feet of Special Resolve road from Hopkins corner towards the Fish Hatchery. We hope to receive an appropriation from the Legislature now in session to complete this road.

For the year 1928 the concrete road construction was transferred to High street, because there was not sufficient funds to re-construct this portion of the street and carry on the usual amount of maintenance work. 1065 feet of seven inch concrete, 20 feet wide was laid. Grading work was expensive, a sub-grade excavation of 350 feet, 18 inches deep and 20 feet wide was necessary to remove the clay sub-soil and replace gravel for a better foundation.

765 feet of third class road was constructed on Mechanic street, which completes the third class road on towards the center of town. The third class work for 1929 has been approved by the State High-

way Commission to extend over Bowers hill. In order to receive the third class money from the State each year it is necessary for the town to properly maintain the third class road and each year cut all brush within the road limits on all roads where State money has been expended.

Rawson Avenue and Knowlton street receive a large amount of travel and because of the nature of the sub-soil it will be necessary to build a stone or coarse gravel base and a six inch gravel surface. This work should be done as soon as possible this spring.

Owing to the fact that the total valuation of Camden has passed the four million mark, the unit for State Aid work is \$1466, therefore the appropriation for 1929 on the five year policy is \$7,330.00; we will receive from the State, \$8,796.00. Gravel construction should continue towards the Turnpike and concrete continued on Mountain street.

The town now owns a two bag cement mixer with a side loader which will almost double the output of the old mixer, cutting the cost of cement work. All new sidewalks should be built of concrete, and the old tar walks that can be used for foundations should be re-surfaced.

\$5,000.00 was raised to pay on the town debt; it was voted at the last annual Town Meeting to borrow the necessary funds in excess of \$2,000.00 to pay for the new heating plant for the High School building, \$7,250.69 was borrowed the excess of overdrafts over un-expended balance is \$1,049.80, making the net town debt \$122,919.02.

Whenever time will permit, study is being made of an out-fall sewer which will dispose of all sewer-

age now emptying into the Megunticook River. This project will require much thought, and conclusions cannot be reached representing an approximate cost until every detail has been studied carefully. This project should be in the minds of the people; eventually it will be necessary to make this improvement.

At this date prospects for a busy year for Camden is in sight, several new residences are contemplated; it is reported with authority that the New England Telegraph and Telephone Company will build an administration building, the telephone and electric service plants will be put under ground or removed to the rear of the buildings, which will make a real improvement in our business district.

Through the generosity of Mrs. Edward W. Bok the Library lot will be improved which will give employment to many Camden people, and will result in one of the most beautiful public grounds in the New England States.

The town has leased the Spear blacksmith shop for storage and repair shop. All equipment and tools have been, or are, undergoing a thorough overhauling, preparatory to spring work, much time and expense is being saved by use of this shop.

We have tried to keep the sidewalks and streets open for both the pedestrian and automobile; the sidewalk plows are generally working at 4.00 o'clock A. M. which means that barring accidents all walks should be plowed by nine o'clock.

I want to thank all those who have worked with me during the last year and also those who have expressed to me their appreciation of the work we are trying to accomplish.

Respectfully submitted,

HERBERT A. THOMAS

### LIST OF PERMANENT PROPERTY

Opera House	\$71,000 00
Knowlton Street School	65,000 00

**MILK INSPECTOR'S REPORT**

The past year I have signed forty-six cards for applications for license to sell milk in the town. I have looked over the carts, cans and bottles and found a few cans having wooden stoppers which I had changed. I found the barns and milk rooms in quite good order. Have sent away some samples of milk and the test was good. The Maine standard is very low .325 to butter fat or cream. Perhaps with the cost of milk a little higher we may get a better grade of milk.

Yours truly,

RICHARD HAMMOND,  
Milk Inspector.

### **Statistics**

Number of persons between the ages of 5 and 21 years on April 1, 1928—Boys, 415; Girls, 402; total, 817.

This is an increase of 19 over last year and 56 over two years ago.

The enrollment of pupils in Camden schools in September, 1928, was 682, an increase of 46 over last year.

---

## **REPORT OF THE SUPERINTENDENT OF SCHOOLS**

To the Citizens of Camden:

I herewith submit my sixth annual report as Superintendent of Schools of Camden. This is the thirty-eighth in the series of Superintendents' reports.

### **SCHOOL ENROLLMENT**

Our schools had an enrollment at the beginning of this school year of 682 pupils, so far as I know this is the largest enrollment Camden has ever had.

The present registration is given below:

<b>Elm Street</b>		<b>Grade Building</b>	
Grade IV,	23	Grade III,	37
Grade III,	31	Grade V,	28
Grade V,	33	Grade IV,	25
Grade II,	34	Grade VIa,	28
Grade IB,	25	Grade VIb,	28
Grade Ia,	26	Grade VIIa ,	31
Sub-primary,	29	Grade VIIb	28
	—	Grade VIII,	46
Total,	201	Total,	251
<b>Millville</b>		<b>High School</b>	
Sub-primary,	8	Freshmen,	61
Grade I,	14	Sophomore,	45
Grade II,	10	Junior,	45
	—	Senior,	40
Total	32	Total,	191

Total registration, 675

### **School Band and Orchestra**

Those who have heard these organizations can hardly believe that so much can be accomplished within one year. The Camden Rotary Club made it possible for the band to get instruments but both the band and orchestra are now school organizations and under the control of the school committee. No small amount of credit is due Mr. Clarence Fish, the director, for the success thus far. Any boy or girl in Camden schools who has an instrument and can play is eligible to both band and orchestra.

### **High School Heating and Ventilating**

The committee appointed by the town last year to work with the school committee to remedy the conditions at the High School building decided to employ a heating engineer to make plans and specifications of what was needed there. The services of Mr. Swanson of the Arthur B. Fels Company, Portland, was secured and following his advice a new vapor heating system was installed. The ventilating system chosen is similar to the systems in the other buildings but made by the Sturtevant Company. The final acceptance of the plant has not been made because some things in the ventilating system has not passed the engineer. I dare say that this winter is the first time in the history of the High School building when every room has been comfortable. I have included the cost of the plant in the financial statement.

### **Teachers and Schools**

Because of the year's leave of absence granted to Mrs. Frye and Mrs. Bailey two new teachers came to us last fall, Frances Alexander of Camden and Dorothy Walsh of Princeton. Both teachers are doing excellent work and are a credit to our splendid corps. It is a pleasure to work with a group of teachers who are doing such splendid work and giving such faithful service to the boys and girls of Camden. For further information relative to school work I refer you to the reports of the Principals which follow.

Respectfully submitted,

CHARLES E. LORD,  
Superintendent.

To the Superintendent of Schools, School Committee and Citizens of Camden:

My sixth annual report as principal of Camden High School is herewith submitted.

School was to have opened Tuesday, September fourth, but due to the non-completion of the heating plant, it was postponed until Monday, September tenth. There have been 202 different pupils in the high school this year, but of this number, two dropped out before the end of the first two weeks, thereby making the maximum enrollment to date 200. Of this number 93 were boys and 107 girls. I believe this is the largest enrollment Camden High School has ever had. The average attendance for the fall term, in spite of many absences because of sickness, was 190.55.

The High School faculty remains the same and I believe this is a good thing when it comes to progress that is really worthwhile and lasting. They have a chance to work things through, which would not be the case if the faculty was constantly changing. Of course it is needless to say that this would require a co-operative group, and that is what we have, I am glad to say.

It was decided just previous to the opening of school that we would try the one session plan, rather than the two sessions as heretofore. School begins at eight o'clock and runs through until ten minutes past one, with a twenty minute recess during that time. This makes the school day twenty minutes shorter than it has been but each teacher is back two afternoons a week from two until four. The result is that the school week for each teacher is in reality one hour and twenty minutes longer than under the

old system. Therefore the teachers are actually putting in about two weeks extra time for the year rather than any less. The system has several disadvantages, as we see it. It is a long period for students and teachers alike. It inconveniences many preants in regard to their dinners. It shortens the periods, as they are now all forty minutes in length and time has to be taken out for passing. This causes a rushed feeling among the teachers for certain of their classes. It makes it inconvenient also in connection with athletic rallies, teachers meetings, etc. But to me, the outstanding point in its favor, is its scholastic stimulating effect. If students keep up in their work they do not have to come back for the afternoons. We feel that there is a marked improvement in this repect over previous years. Another thing in its favor is that it helps certain ones who have to work after school hours. It also makes it better in connection with the coaching of athletics.

I stated in last year's report that there was a possibility of returning to the nine weeks system of ranking. This has been brought about and the half year examinations eliminated. All of the examinations now cover the same amount of ground, that is, the work taken in nine weeks. This gives all students experience in taking exxaminations. The semester examinations are severe enough for college students and we feel that they are by far too severe for students of high school age.

In regard to athletics, we had a very successful basketball season a year ago, having won both the boys' and girls' championships in that sport. We also had very good support financially. Baseball went very well, but we didn't get the championship,

neither did we get much financial support from the public, barely making money enough for running expenses and nothing for equipment. We were up against it again this year as last in football, chiefly because of the lack of material. Girls' basketball is going fine again this year but boys' not so well. We need financial support if athletics are going to continue and be made to amount to all that they should. This is the only school around here that I know of which has to pay for a gymnasium out of its own funds, and this alone will amount to \$110 this year.

The suggestion of uniting the laboratory and the small recitation room adjoining was carried out during the vacation last winter. It makes a much nicer situation than before, increasing the board rooms light, and above all the convenience of the laboratory itself. It is now of a more modern type and permits the use of demonstration experiments.

During the summer, a stairway was put in leading from the second floor to the first as an aid in case of fire primarily. The walls and ceilings of most of the rooms were painted and a part of the desk tops refinished. The new heating system seems to be giving very good service. The faculty and students appreciate these much needed improvements and it is hoped that the building will be in as good condition in June as it was in September, barring a normal amount of wear.

The chief duty of the teacher is that of service. She or he can best serve where there is complete understanding between parents and teacher relative to the student's work. It is my desire that that understanding might become more complete in the days to come because this is the basis for more rapid

progress.

Again I wish to thank the Superintendent, School Committee and Citizens for their interest, help, and co-operation during the past year.

Respectfully submitted,

CARLTON P. WOOD,  
Principal.

---

To Mr. Charles E. Lord, Superintendent of Schools.

A brief report of the schools in the Brick Building is herewith submitted:

The present registration in the building numbers 250. The attendance during the fall term was unusually good and even the epidemic of the past few weeks has not had the serious effect upon our attendance records that many schools have felt. We have but few cases of unnecessary absence and tardiness and those few might not occur if the parents realized the great importance of the pupil's presence at every class period. Absence from a single recitation cannot fail to make work that follows in that subject more difficult for the pupil and however faithful the effort, "made-up" work can never be of value equal to that of the regular class period.

The schools have been visited by quite a good number of parents during the year. Such interest is helpful to both pupils and teachers and is appreciated. We would especially urge those parents to come, to whom questions in regard to school activities may arise. Personal knowledge of the work seems the only fair way to judge of the efforts of the schools to safeguard and promote the interests of the girls and boys.

In general the work is being conducted along much the same lines as it was last year. It has become possible to have departmental teaching in the Sixth Grade as well as in the Seventh and Eighth and this is another step toward improvement.

The interest shown in the school bank is most satisfactory. During the twenty weeks of school thus far, the deposits amount to \$264.06.

The special activities of the school are being noted each week in the Camden Herald.

Respectfully submitted,

MARY E. TAYLOR,

Principal.

---

To Charles E. Lord, Superintendent of Schools:

The annual report of the Elm Street School is herewith submitted.

School opened September 10 with a total registration of 213 pupils. The enrollment in the First Grade was unusually large and more room was needed for these children. Miss Littlefield was transferred to the Knowlton Street Building with the Sixth Grade, and another room was assigned to the First Grade with Miss Dorothy Walsh as teacher. The present registration is 201.

The regular work has been carried on with but few interruptions. Achievement tests in arithmetic and language were given in the fall. Beginning with American Education Week in early November, the school Red Letter days have been observed in the several rooms or by assemblies.

Last spring another gift of \$150 was presented to the "Wood Memorial Library" by Mr. Charles C.

Wood. Many new books were soon placed on the shelves to the delight of the children, the majority of whom are intensely interested in the Library. Mr. Wood's generous gift and the interest he is taking in Camden's boys and girls are deeply appreciated.

The children's interest in the bank continues. During the past twenty-one weeks \$287.81 have been banked. Special mention should be made of the Pre-Primary Class and the First Grade in Mrs. Dyer's room. These classes have banked \$106.26 of the total amount saved during those weeks.

A set of the "World Work" was placed on the library shelves last fall by Supt. Lord. This encyclopedia, the best to be obtained for the use of a child, is a valuable addition to the library.

Several new pictures have been hung on the walls this year, and we hope to obtain others.

Our Victrola has been in use for many years and is worn out. For folk dances, marching, and music appreciation the Victrola is invaluable, and a new one is needed.

The Elm Street teachers sincerely appreciate the interest, support, and co-operation given by Superintendent, by School Committee, and by parents and citizens.

Respectfully submitted,

NETTIE ERNESTINE KNIGHT.

## STATE OF MAINE

KNOX, SS.

To William S. Dyer, Constable of the Town of Camden  
in the County of Knox.

Greeting:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of the said Town of Camden, qualified by law to vote in town affairs, to meet in the Opera House building in said town, on Monday, the 11th day of March, A. D. 1929, at nine o'clock in the forenoon, the polls to be opened at 9.15 o'clock in the forenoon and kept open thereafter at least four hours, to act on the following articles, to wit:

1. To choose a Moderator to preside at said meeting.
2. To hear and act upon the report of the town officers.
3. To elect a clerk, seven selectmen, assessors and overseers of the poor, treasurer, auditor, tax collector and school committee.
4. To see if the town will vote to elect a committee of citizens, representing all sections of the town, said committee to include the selectmen, treasurer, superintendent of schools, which committee shall investigate all parts of the warrant, especially those calling for appropriations, make recommendations concerning each, and submit a report at the next annual town meeting; and if so to elect the same.

5. To see what sum of money the town will vote to raise for the repair and construction of roads and bridges for the ensuing year and how the same shall be raised.

6. To see what sum of money the town will vote to raise for breaking roads and removing snow for the ensuing year, and how the same shall be raised.

7. To see what sum of money the town will vote to raise for the support of the poor for the ensuing year and how the same shall be raised.

8. To see what sum of money the town will vote to raise to defray the salaries and incidental expenses and how the same shall be raised.

9. To see what sum of money the town will vote to raise for elementary and secondary schools, including teachers' wages, fuel, janitors' services, conveyance, tuition and board of pupils, text books, reference books and school supplies for desk or laboratory use and how same shall be raised.

10. To see what sum of money the town will vote to raise for the repair of school houses and how the same shall be raised.

11. To see what sum of money the town will vote to raise for insurance of school houses and how the same shall be raised.

12. To see what sum of money the town will vote to raise for industrial education and how the same shall be raised.

13. To see what sum of money the town will vote to raise for physical education and how the same shall be raised.

14. To see what sum of money the town will vote to raise for medical inspection in our public schools and how the same shall be raised.

15. To see what sum of money the town will vote to raise to pay the interest on the town debt and how the same shall be raised.

16. To see what sum of money the town will vote to raise to pay on the town debt and how the same shall be raised.

17. To see what sum of money the town will vote to raise to pay the expenses of the Fire Department and how the same shall be raised.

18. To see what sum of money the town will vote to raise for hydrant service and how the same shall be raised.

19. To see what sum of money the town will vote to raise for street lighting and how the same shall be raised.

20. To see what sum of money the town will vote to raise for street sprinkling and cleaning and how the same shall be raised.

21. To see what sum of money the town will vote to raise for the Camden Public Library and how the same shall be raised.

22. To see what sum of money the town will vote to raise for the care of the cemetery and how the same shall be raised.

23. To see what sum of money the town will vote to raise to help the expenses of the Arey-Heal Post, American Legion, on Memorial Day.

24. To see what sum of money the town will vote to raise for the repair and construction of sidewalks and how the same shall be raised.

25. To see what sum of money the town will vote to raise for Mothers' Aid for the ensuing year and how the same shall be raised.

26. To see what sum of money the town will vote to raise to pay outstanding bills and how the same shall be raised.

27. To see what sum of money the town will vote to raise and appropriate for advertising our natural resources, advantages and attractions, under the provisions of Chap. 4, Sec. 59, of the Revised Statutes of Maine.

28. To see if the town will vote to raise the sum of \$500.00 to spray, trim, or otherwise protect our shade trees and how the same shall be raised. This money to be spent under the supervision of the Garden Club and the town officials.

29. To see if the town will vote to authorize the treasurer and selectmen to negotiate temporary loans in anticipation of the payment of taxes, not to exceed the aggregate sum of forty thousand dollars, said loans to be obtained from time to time during year, as needed, and at as low rate of interest as possible.

30. To see if the town will vote to raise the sum of \$500.00 towards defraying the expenses of the District Nurse and how the same shall be raised.

31. To see if the town will appropriate and raise the sum of \$7330.00 for the improvement of the section of State Aid Road as outlined in the report of the State Highway Commission. in addition to the amount regularly raised for the care of the highways and bridges; the above amount is raised under the provisions of Sec. 21, Chapter 25, R. S.

32. To see if the town will vote to raise \$150.00 to defray expense of tree survey and how same shall be raised.

33. To see what sum of money the town will raise to

purchase a new town clock for the Baptist Church and how the same shall be raised.

34. To see if the town will vote to resurface Union Street sidewalk, from Belmont Avenue to the end of the present walk.

35. To see if the town will vote to improve Hosmer Pond Road, beginning at Bowers corner so-called, and ending at the Molyneaux Road at upper end of the pond, said improvement to include proper drainage, culverts, ditches and resurfacing with gravel; accepting a gift from Sophus Hansen of one-half of the gravel required for said work, to be taken from his gravel pit at Harrington Farm, what sum of money it will vote to raise for said purpose and how same shall be raised.

36. To see if the town will vote to buy the bond for the town Treasurer.

37. To see if the town will amend the by-laws of the Atlantic Engine Co. as adopted at the March meeting, 1918, by accepting the new by-laws as printed.

38. To see if the town will vote to build a sewer on Harden Avenue.

39. To see if the town will authorize the Selectmen to negotiate the purchase of the Brewster Shirt Factory lot, building and machinery, for a sum not to exceed eight thousand dollars, and raise the money for the same; on condition, however, that the Congress Shirt Company, or some other reliable employer of labor, will accept the free use of said property for the establishment of a new industry in Camden, with an option to take a free conveyance of said property after five years of satisfactory operation.

The selectmen give notice that they will be in session for the purpose of correcting the voting list, Saturday,

March 9, 1929, from 2.00 P. M. to 5.00 P. M.

The polls will be open for voting March 11th, 1929,  
from 9.15 A. M. to 1.15 P. M.

Given under our hands this first day of March, A. D.  
1929.

FRANK H. THOMAS

R. W. JOHNSON
